

# Looking at Evidence

(page 1 of 2)

The bar has a corkboard where families of all sizes can post pictures of their pets. During the theft, the culprit knocked all the photos off the board. The captions listing the family members are still in their places on the board, but the bartender needs help identifying which pet belongs in each family. Some of those pets are rather unusual – ranging from ferret to goose to iguana – but they’ve been given names to help them fit in as part of their families.

After you’ve helped get the pets matched up with their owners, you can look for what the culprit might have wanted to hide. The bartender tells you that all the members of each family identified a useful characteristic in the species of animal they chose. Maybe those characteristics will prove to be useful for your investigation as well!

The captions are shown below, in the order in which they appear on the photo board. The photos are on page 2.
