

viola cyborganista

ELIZA: The viola organista is a musical instrument containing a rotating wheel, which bows the strings that run past it. A cyborg is a person who's had a body part replaced by a machine (or, in this case, a musical instrument).

Remove the instrument from each cyborg word. Draw a line to the body part that goes there instead. Put the first letter of the removed instrument in every diamond crossed by that line. Reading in number order, the inner diamonds will tell you what the cyborgs want most, and the outer diamonds will tell you how long they'll last.
