Chandler

Solution: The twelve "truths" are circled below:

Across (from the top down):
7 x 2 = 26 - 12
1^4 = 1
8 + 3 − 21 + 19 = 9
18 = 3 − 5 + 20
5 + 13 = 15 − 1 + 20/5
8 = 16/2

Down (left to right)
15/5 = 12 − 9
23 = 21 + 2
4 + 19 = 18 + 13 − 8
12/3 = 5 − 1
20 = 20
24/3 = 2^3

Their interesections (**commonalities**)
in order are
4, 9, 19, 3, 18, 5, 20, 5, +, 13, 1, 20, 8

These numbers match up with letters
DISCRETE MATH.

22	=	4	x	6	=	8	+	15	+	4
=	12	-	26	=	2	x	7	=	24	^
1	=	4	^	1	=	12	=	2	/	3
=	3	+	3	=	7	/	6	x	3	=
9	=	19	+	21	-	3	+	8	=	24
-	23	=	12	x	2	=	5	-	2	x
12	=	18	=	3	-	5	+	20	^	2
=	21	+	16	=	19	-	2	=	3	=
5	+	13	=	15	-	1	+	20	/	5
/	2	-	26	=	2	x	5	+	5	x
15	+	8	=	16	/	2	+	8	+	9

DISCRETE means separate, distinct, disconnected. The homophone DISCREET means careful, cautious, inconspicuous.
